Profile

My name is Erica Dorn.

I am currently undertaking a year-long placement program as part of the Graphic Design course at the London College of Communication to experience design in a professional context. I am available for placements, commissions, collaborations, exhibitions and freelance work both in London and overseas.

I see this year as an opportunity to experience as many aspects of design as possible and to work with and learn from a wide range of artists and designers. However my main interest lies in design for cultural institutions and organizations, art events/galleries and the music industry.

I would be grateful for the opportunity to show you my portfolio. Please visit my website (www.ericadorn.com) for more samples of my work, and feel free to get in contact with me anytime.
